Budget Report 2010 for the East Midlands

Today the Chancellor of the Exchequer has set out his Budget. The measures announced will reduce the deficit, introduce a fairer tax system, and encourage an enterprise and growth agenda in the UK. These steps are based on the Government's key values of responsibility, freedom and fairness. These measures include:

- To help areas and communities particularly affected by reductions in public spending make the transition to private sector-led growth and prosperity, the Government will create a Regional Growth Fund in 2011-12 and 2012-13. This fund will operate in England only and support proposals from private and public-private bodies that create sustainable increases in business employment and growth.
- The Government will shortly announce details of a scheme to help new businesses in countries and regions outside London, the East and South East. The three-year scheme will exempt new businesses from up to £5,000 of employer NICs payments, for each of their first 10 employees hired. Subject to meeting the necessary legal requirements, the Government intends to have the scheme up and running by September. Any new business set up from 22 June which meets the criteria set out in the forthcoming announcement will benefit from the scheme. Up to 48,000 businesses could benefit in the East Midlands.
- The impact of the employer NICs rate rise previously announced will be largely reversed by increasing the threshold for employer NICs by £21 a week above indexation. This will lead to a saving of around £230 million in the East Midlands.
- The Budget 2009 proposal to repeal the special tax rules for furnished holiday lettings will not be implemented. Instead, the Government will consult over the summer on an alternative proposal to ensure the tax treatment of holiday lettings meets EU legal requirements in a fiscally responsible way, which does not penalise UK businesses, by changing the eligibility thresholds and restricting the use of loss relief. This will benefit an

estimated 3,100 individuals in the East Midlands who receive an income from furnished holiday lettings.

- The income tax personal allowance for those aged under 65 will be increased by £1,000 in cash terms, taking it from £6,475 in 2010-11 to £7,475 in 2011-12. As a result, the Government estimates that 23 million basic rate taxpayers will benefit by up to £170 each. In the East Midlands almost 1.7 million basic rate taxpayers will gain from this measure.
- Government will uprate the basic State Pension by a triple guarantee of the highest of earnings, prices or 2.5% from April 2011. The Consumer Price Index will be used as the measure of prices in the triple guarantee. However, to ensure the value of a basic State Pension is at least as generous as under the previous uprating rules, the Government will increase the basic State Pension in April 2011 by the equivalent of Retail Price Index. An estimated 0.9 million pensioners in the East Midlands will benefit.
- Government will uprate the standard minimum income guarantee in Pension Credit in April 2011 by the cash rise in a full basic State Pension to ensure the lowest income pensioners benefit from the triple guarantee. 150,000 pensioners currently receive Guarantee Credit in the East Midlands.
- The Government will introduce legislation to waive certain backdated business rates bills, including for some businesses in ports. An estimated 3,000 businesses across England will benefit.

Chief Secretary to the Treasury Danny Alexander:

“The previous Government has left us with a legacy of debt and unsustainable spending, we are taking the decisive action needed to pay for the past and plan for the future. That is why today we have set out a comprehensive five year plan to put the British economy back on track. We have made the tough choices needed to get our borrowing down but we have done it in a way that is fair, protects the vulnerable and supports businesses across Britain.”
